RESTORING JOY & LIGHT

Every resident of Passamaquoddy Lodge deserves to spend their waning days in the sun.

### Quality of Life Focus:

Our residents come here to live out the remainder of their lives; we need to make their stay here the best it can be:

- by providing a large, new solarium, filled with light and a feeling of openness;
- by providing adequate storage space we can keep the sitting/visiting spaces available for them to enjoy unencumbered with equipment;
- by allowing the palliative care room to be a dedicated place of solace for dying residents and their families;
- and by providing a feeling of spaciousness which is well organized and more appealing to all that live, work and visit the Lodge.

## CASE FOR SUPPORT

Passamaquoddy Lodge is one of the province's most well run, most respected nursing homes

Provincially licensed and nationally accredited, achieving exemplary status

Since Passamaquoddy Lodge, a 60-bed nursing home, opened its doors to residents in 1973, thousands of residents from St. Andrews and the surrounding communities have called Passamaquoddy Lodge home. The Lodge today is a living testament to a caring community, having been generously supported through its conception, construction and more recent projects by local foundations, organizations, churches, businesses, students, individuals, and the Town.

The dignity of residents is of prime importance. Passamaquoddy Lodge will continue to maintain and enhance the quality of seniors' and disabled persons' care that has been a proud tradition.

### RESTORING JOY & LIGHT

The Restoring Joy and Light campaign seeks to raise \$350,000 so we might build a large, new solarium with windows on three sides, providing a lovely space filled with light for our appreciative residents. And so we might reclaim our palliative care room; allowing it to be a dedicated place of solace for our dying residents and their families. A second room will be built on the Bayview Blvd. wing as an office and supply room for the activity director. This will allow the activity director's current room to be used for mobility equipment storage, conveniently located for ease of use. The bedrooms simply cannot accommodate wheel chairs and walkers.
